

CARARE Training Workshops

Stein Runar Bergheim
Asplan Viak Internet as

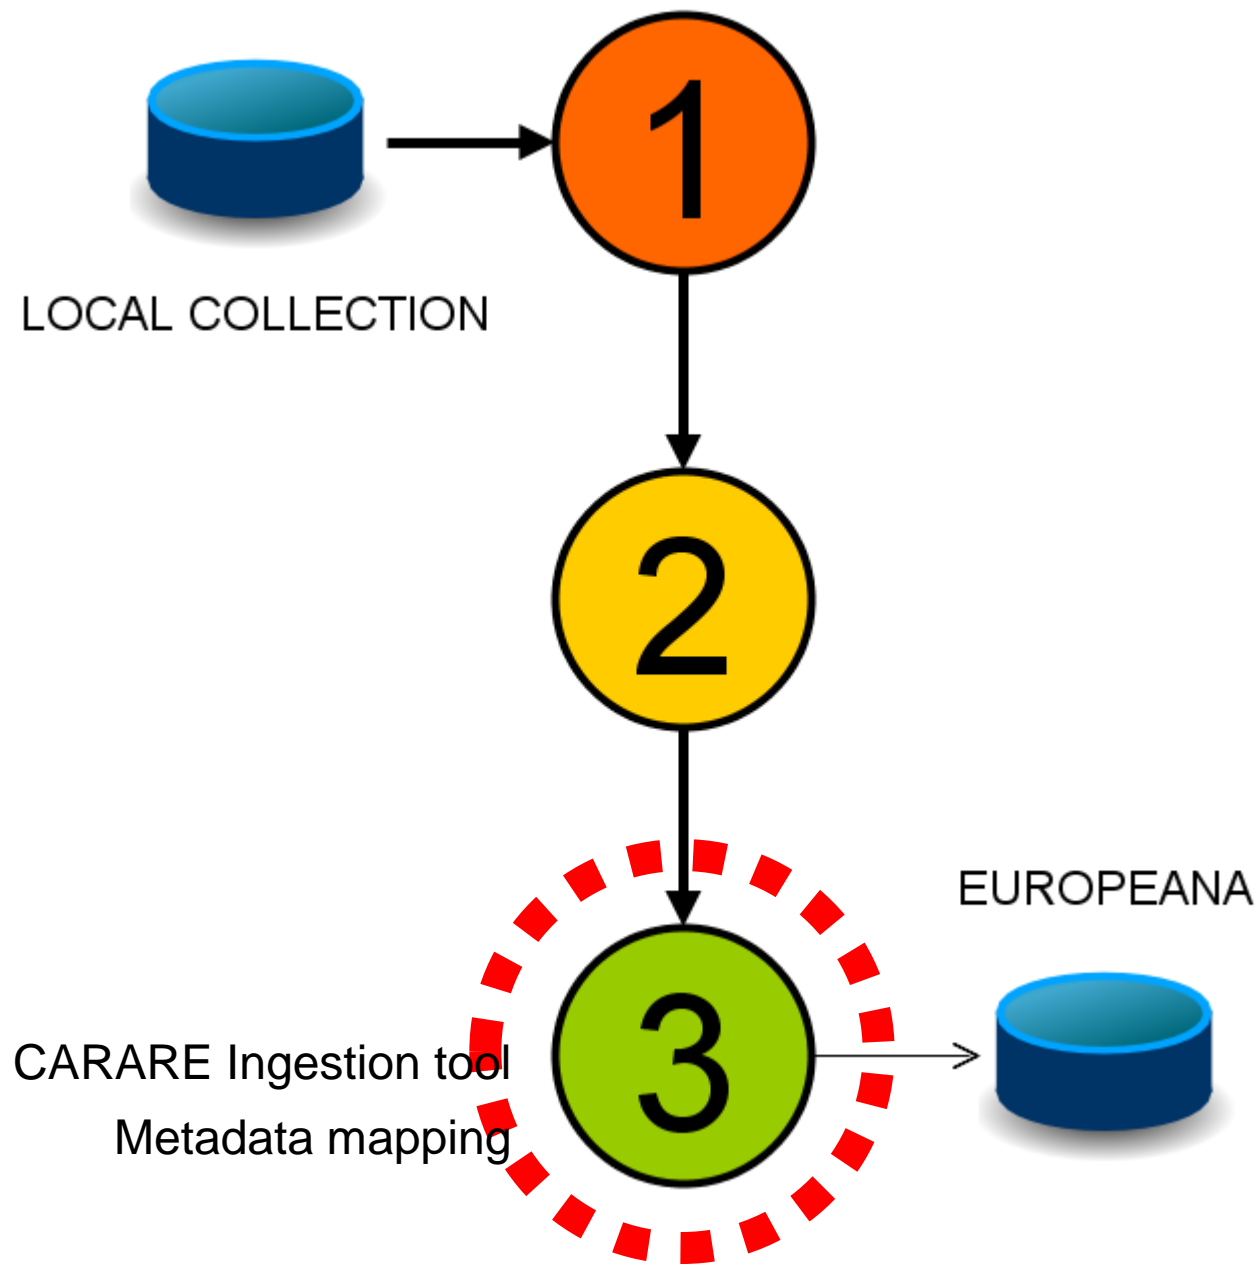

europaena

carare project

CARARE is funded by the **European Commission's ICT Policy Support Programme**

Stage 3: Ingestion & Mapping

The CARARE Ingestion Tool

A web based platform for:

- Ingestion of data in flexible source formats
- Mapping of source formats to CARARE Schema
- On-the-fly transformation to EDM

The CARARE metadata schema

Overview of the CARARE metadata schema

Discussions on how to interpret the various target elements

Presentation provided by

- Dimitris Gavrilis, Digital Curation Unit, IMIS, Athena R.C.

Ingesting data from your Repox

Since our Repox repositories are installed on local computers it will NOT be possible to access them from the CARARE tool

We will therefore use a Repox repository installed at AVINET for testing purposes
